

STATEMENT OF PURPOSE

RS18478

The purpose of this legislation is to allow the entry of Idaho into an interstate compact to help military children. The Interstate Compact Commission, already joined by eleven other states, will remove barriers to educational success imposed on children of military families because of frequent moves and deployment of their parents.

FISCAL NOTE

Each state pays \$1.00 per student for expenses of the Interstate Compact Commission plus travel expenses to one Commission meeting a year. Idaho has approximately 2,062 children of military families.
